

# RedFoot® FULL AUTO LEVELLING SYSTEMS

## EASY LEVELLING SYSTEM FOR MOTORHOMES

The RedFoot Full Auto Levelling Systems has quickly become the premium choice in RV Levelling systems. Utilizing four two-way hydraulic cylinders, Auto-Level has the ability to extend and retract the legs during the levelling sequence. The automatic, one touch operation levels a motorhome in less than two minutes, operating each leg independently in a sequential process.

### FEATURES

- NO SPRINGS or HINGES to rust and break
- Huge 10" x 10" foot pad to prevent sinking
- One touch, push button Auto-Level operation
- Simple plug and play wiring - no soldering needed
- Reduced installation time
- Flexible hydraulic lines made to measure
- Light weight
- Hydraulic cylinder - 5 & 7.5 Tonne capacities per leg
- Available from 13" to 24" Cylinders
